LAST KOMMERS.

Mr. John Z. White of Chicago to Speak on The Single Tax.

Mr. John Z. White, a lecturer of wide reputation, will be the speaker at Kommers to-morrow, the last of the year. His subject will be "The Single Tax," a topic of absorbing interest and vital importance. Mr. White is one of the leaders of the Single Tax movement, which has for its object the replacing of the many forms of real estate, personal property, and pole taxes by a graduated single tax. This agitation was commenced twenty years ago by Henry George, and in recent years has been much in the public mind.

As a speaker, Mr. White's striking aptitude for lucid explanation, strong argument, and simple interesting style is immediately recognized. He is an exceptionally clear thinker, a logical reasoner, and an earnest and forceful exponent of economic truths.

Such a subject presented by so able a lecturer should prove of particular attraction to all Technology men, many of whom will some day come in contact with just such economic problems. As a large attendance is expected, tickets should be bought in advance.

HARD HIT FRESHMEN.

Brookline High badly beat the Tech Freshman Team Wednesday afternoon on Brookline Common, the score at the end of the fourth inning being 14 to 0, Brown of the home team having had seven strike-outs.

MASS MEETING.

Mr. Samuel Cabot to Speak. Cheers to be Practiced for Meet Tomorrow.

Samuel Cabot of the Corporation will address the mass meeting in Huntington Hall today at 1.30. The meeting is called to practice cheering for the Williams Meet.

Mr. Cabot is an enthusiastic supporter of Tech Athletics. He has given the Tech Field, and the Cabot Medals, and the Trophy Cup; and his presence at the mass meeting is warranted to arouse a high degree of enthusiasm.

A notice is issued to all Tech Show and Glee Club men to get together in the front seats and be ready to lead in singing and cheering so that there may be good provision for rooting tomorrow.

THE WILLIAMS MEET.

Tomorrow's dual meet with Williams College promises to be the closest and most exciting one that Technology has had for many years. As far as can be determined from a comparison of the work of Williams against Wesleyan last Saturday with the work of the Track Team in the spring meet, Technology should win by a narrow margin. But the two teams are so evenly balanced that it is hard to prophesy the outcome. Technology seems to have the better team, considered as a whole, but, while a victory seems certain, the events are going to be so closely contested that a lover of athletics will get fine entertainment at the Field tomorrow. The entries of the two teams are as follows:

WILLIAMS.

100 and 220-yard dash—A. M. Cowperthwait, J. Watters, H. M. Green, E. A. Clark, J. D. G. Hill.

440-yard dash—B. E. Hurlbut, J. H. Conover, K. S. Wells, C. B. Chapman, N. E. Hopkins.

880-yard run—W. S. Ayres, N. H. Egleston, J. H. Conover, C. B. Chapman, H. H. Wilcox.

1-mile run—B. P. Allen, R. W. Lesser, J. L. Goodbody, J. J. Butler, L. L. Wilder.

2-mile run—G. R. Bonner, E. B. Davis, A. J. Allen, L. L. Wilder, B. P. Allen.

120-yard low hurdle—M. D. Griswold, A. M. Brown, J. H. Lapham, G. Horrax, A. M. Swain.

Shot-put—E. J. Marshall, H. H. Lamont, A. M. Swain, R. D. Johnson, J. H. Lapham.

WALKER CLUB MEETS.

The Walker Club held a dinner at the Technology Club last evening which was largely attended and much enjoyed by those present. The opportunity for a social club of this sort at Tech is large and during the coming year it is hoped that arrangements can be made to bring the club into greater influence. It was the Walker Club that gave impetus to the Tech Show idea and in a quiet way the club is making its influence felt in many directions.

The Kommers.

The last Saturday evening Kommers will be held tomorrow evening at the Tech Union. The speaker is one of considerable note and his subject "The Single Tax" is one which should be particularly interesting to those who expect to have to do with the economic problems which are before the country today. The continued success of the Kommers this year has assured for them a prominent place in our undergraduate life and it is earnestly hoped that some feasible plan for their maintenance next year will be adopted tomorrow. To Mr. Rand are due the thanks of the undergraduates, for his unfailing interest in their welfare and for the fact that the Kommers are now one of the most prominent of undergraduate activities. It would seem advisable to have them entirely in charge of an undergraduate organization or committee and so relieve Mr. Rand of the duties he has so willingly assumed and so efficiently carried out.

NAVAL ARCH. SOCIETY SMOKER

Those who attended the meeting of the Naval Architectural Society at the Union Wednesday evening had a very enjoyable time. Two seniors—H. H. Brown and Lyons—spoke at some length on their thesis work; and many others of their class entertained the Society with accounts of the humorous incidents of this work. Everybody seemed prepared for a good time; and with the singing of popular songs and the telling of stories the smoker was a complete success.

UNDERWOOD'S Original

DEVILED HAM

When you strike off into the woods, see that in your pack basket or in the bow of your canoe you have a sufficient supply of Underwood's Original Deviled Ham. A small can and a couple of slices of bread, or, better still, cold toasted bread (toast should be buttered after it has become cold), make a satisfying and delightful lunch. In camp it is always indispensable, either for emergencies or the regular table.
It may be bought at any good grocer's, but be sure you see on the can THE LITTLE RED DEVIL. There is only ONE Deviled Ham—*Underwood's Red Devil Brand*. All others are imitations, but imitations in name only, as the goods commonly labeled and sold as potted or deviled ham, made as they are from the odds and ends of the packing house, are no more like *Underwood's Original Ham* than chalk is like cheese.
Our Book contains a lot of unique and practical receipts. We will send it FREE.
